

Katoomba Brick Co. Operations have resumed with a new staff after a shut down between November, 1954 and January, 1955. Materials are now being obtained from an area near Dead Horse Gulch. This area is the subject of PLL Application 233. For your information, some material has already been mined off both portions 207 and 17 which fact might be noted by Lease Branch. Fitz & Turner contractors for company.

Katoomba Brick Works. Pit at works closed down. Lease application reported on under separate papers. 15.9.55

Katoomba Brick Co., Narrow Neck.

Inspected 24.6.1957.

Inspection of works quarry now abandoned. Gate to site has been left open and face is in a bad condition. Previous operator's whereabouts not known. On private property.

4/747

10.7.63

KATOOMBA BRICK CO. - Mt. Victoria.

Inspection of lease application at foot of Mt. Victoria Pass. Not working. Deposit is clay-shale for brick making.

20.11.1959.

Accompanied by Mr. Electrical Inspector K.S. Robertson, Katoomba Brickworks was inspected and found to have been abandoned, apparently for some years.

Sand sources, as marked on map, were sought but were unable to be located in time available.
