This booklet was produced by the Glenbrook & District Historical Society Inc. 2004

President Tim Miers is responsible for the inception of an idea which has now come to fruition by way of this publication. It brings about the awareness of the way of life as experienced by the residents in the early development days of the Village of Glenbrook. It is their stories and their experiences.

Acknowledgement of the following contributors is gratefully accepted, for without their assistance the production of this publication would not have been possible.
